WELCOME TO OUR COMPANY

GoldBridge Capital is dedicated to Blue Chip information technology, oil and gas, green energy, hydropower, hospitality services, stock market shipping and logistics, biomedical research and also investing in business start-ups and acquisitions to generate treasures to finance investors.

Gold Bridge Capital is a global systematic investment manager. Our centralized research focuses on the development of advanced quantitative techniques for uncovering market opportunities and employs them within a disciplined framework that results in efficient exposures.

An aerial view of a city skyline, likely New York City, with numerous skyscrapers. The image is overlaid with a blue digital pattern at the bottom, featuring glowing lines and dots. The word "ABOUT US" is prominently displayed in the center in a large, white, sans-serif font. A small orange arrow points left in the top left corner, and a horizontal orange line is positioned above the letter "O" in "ABOUT".

ABOUT US

Launched in 1868, the trust was the world's oldest collective investment fund. A lot has happened in the world over the last 150 years. And investment opportunities have changed, too. A glance at the companies that the trust invests in today shows how the financial landscape has transformed over the years. Alongside giants like BP and Unilever sit powerful newcomers like Amazon, Netflix and Facebook, and rising star companies in developing markets.

[More Information](#)

With a robust infrastructure and talented investment professionals, Gold Bridge Capital offers clients the scale of a large asset management firm, with the benefits of a versatile investment platform – flexibility and customization. Our firm is able to offer institutional and retail investors the essential building blocks for today's changing investment landscape.

This means supporting our colleagues, customers and clients, and the communities and environment in which they operate, for the benefit of all our stakeholders. It means helping people and businesses unlock their potential and plan for the future with confidence, building relationships that stand the test of time.

And it means that we continue to be there for the long-term, whatever the climate, making decisions that are right for today and for generations to come.

To achieve this, our long-term strategic approach place exceptional service at the heart of everything we do. Each of our diverse, specialist businesses have a deep industry knowledge, so they can understand the challenges and opportunities that our customers and clients face.

We support the unique needs of our customers and clients to ensure that they thrive, rather than simply survive, whatever the market conditions.

OUR VISION

We believe in putting our customers and clients first. Our cultural attributes bring out the very best of our people, skills and strong reputation that we have built with our stakeholders over many years. A combination of expertise, service and relationships with teamwork, integrity and prudence underpins our approach and gives us the tools to thrive over the long term.

OUR MISSION

It is to build trust in society and solve important problems. There is no more important or far-reaching problem than climate change. We're focused on helping to solve one of the major issues reshaping the world; climate change and resource scarcity. As part of our sustainability efforts, we've set some clear targets to reduce our environmental impact.

Our principles and ambitions

While our responsibilities and obligations in each of these three roles may differ, as we discuss below, our approach in all three is united by a common set of principles and ambitions, set out in the box at the bottom of the page.

We serve as an asset owner on behalf of Prudential With-Profits policyholders, and our pensions and annuity customers. This means we make decisions about how to allocate money to different asset classes and which asset manager should manage our money.

Sustainability principles and ambitions

Customer led

We aim to: be relevant, innovative and accessible; meet customer demand for sustainability and impact solutions; communicate clearly about our products, policies, processes and potential outcomes.

Capability enabled

We will use: world class people, research and proprietary tools and data to understand ESG risks and identify opportunities across all asset classes; our influence as a leading active investor to advocate for sustainable performance; our financial strength to make investments which create positive change.

Sustainably delivered

We will do this with: an inclusive, accountable culture focused on our purpose and our values of care and integrity; sustainability embedded in all we do, from customer service to risk management.
